**PURPOSE/BACKGROUND:**

Residents in the area of Grand Teton Drive and Maverick Street have requested the installation of a 4-way stop at this intersection. At present, Maverick Street is stopped northbound and southbound at Grand Teton Drive. Studies conducted for a 4-way stop showed that the intersection did not meet the warrants. At least 200 vehicles per hour for 8 hours of an average day are needed to meet the warrants; Maverick Street had a total of only 180 vehicles for a 24-hour period. Both the City Traffic Engineer and the Traffic and Parking Commission have denied the request since the warrants were not met. The residents are appealing this decision to the City Council.

**RECOMMENDATION:**

Traffic and Parking Commission: Denial

Staff: Denial

**CITY COUNCIL MEETING OF: JUNE 6, 2007**

for the requested four-way stop sign, it was determined that the intersection does not meet warrants, largely because of low-traffic volumes and no accidents within the last three years. He recommended a direction to staff to install the four-way stop sign when warrants are met. CITY ATTORNEY JERBIC concurred, explaining that warrants are absolutely necessary for the installation of the stop sign, otherwise the Council could be exposed to liability.

COUNCILMAN ROSS expressed appreciation for the efforts of staff, as well as the concerns of the residents. He confirmed that the necessary horse-crossing signs were installed and the crosswalks completed.
